**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed 08/03/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure (as filed 01/12/01) is as follows: Page 16, lines 8-10 define a **"diagnostic state request object"** in the diagnostic resource on the resource layer which performs diagnosing of a system and transfers its result to the head end. The performance of diagnosing by the diagnostic request object is not previously contained in the disclosure as originally filed. Page 16, lines 14-16 define a **"diagnostic confirmation object"** which transfers a **"diagnosis result performed by the OOB protocol processor 61 to the head end"**. The performance of a diagnosis by the OOB protocol processor is not previously contained in the original disclosure (as filed 01/12/01).

### *Response to Arguments*

2. Page 16, lines 6-11 (of the amendment), states "an amended mark-up copy of the original specification" has been included to correct deficiencies pointed out by the examiner.

In response, this included mark-up specification (B)(filed 08/03/04) appears to actually be a mark-up of a substitute specification (A)(filed 01/17/02) and not the original

specification (filed 01/12/01). The new matter material in substitute specification (B)(filed 08/03/04) was therefore also new matter material in substitute specification (A)(filed 01/17/02), as stated in the previous action.

3. On page 16 (of applicant's response), applicant states that support for the material considered new matter can actually be found on page 15, lines 10-20, page 17, lines 10-11 and Fig. 11, steps 1-7 of the original specification.

In response, the examiner finds that the claimed subject matter is still considered new matter and not supported by the original specification (as filed 01/12/01). More specifically, the sections pointed out by the applicant contain no reference to any of the new matter material. It appears applicant is actually indicating passages from the substitute specification (A)(filed 01/17/02). Since the sections applicant references in substitute specification (A)(filed 01/17/02) are also new matter (as indicated in the previous application), it is improper to attempt to use it as support for any new amendments to the specification.

***Allowable Subject Matter***

4. Claims 18-20, 23-28 and 31-42 are allowed.

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

### **Conclusion**

6. This application is in condition for allowance except for the following formal matters:

The specification is objected to for containing new matter as indicated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
